Eddy Briand, Florian Maurel & Victor Ternisien

27 responses

Interesting spin on the presentation, keeps it fresh and amusing

catch the audience by their "odyssey". make people laugh. any images about the game but they help to understand what they passed through. they have a structure of their speech and they don't read a script.

An original presentation that make smiling everyone. Good point but there is a small lack of readability

Maybe include the game, otherwise its great

Fun, but too much difference between voice strength.

Voices that keep engaged.

Florian should articulate more :(

Olde English memes c:

rigolotus formus

So coooooooooooooool & funny, good job :)

Probably one of the best odyssey after Ulysse. We feel that you are prepared. I don't have any bad points to say (maybe the fact that you talk about problem with the rest of the team but they're not here, it can misunderstood)

They were speaking loud. The slides were great and beautiful but t's too bad that we didn't had more images...

Funny presentation. Nevertheless, their funny slides distracts the audience's attention : I wouldn't recommend doing it. Sometimes Florian says words not clearly. Victor and Eddy were easily understandable.

Really fun ! I really thought it was cool. I think they had a real content behind the pictures and it was interesting to hear what they said + the pics. Sometimes I couldn't really understand Eddy, but still it was really cool.

Really fun presentation

Very funny presentation, I loved what they did with their slides and the old english stuff. I found it a bit hard to read AND to follow what they were talking about at the same time though.

PowerPoint original, bonne répartition de la parole et bonne gestion du temps avec une point d'humour sympathique

Cool storytelling with the medieval drawings, a bit of trouble speaking because of the stress I assume.

A very fun and original presentation. There were timing issues at times, however it was a nice presentation in general, even though there were hesitations. A big Gourmet's pecha kucha. (But be careful, jokes can

become redundant and you need more variety)

good presentation, the support with the medieval aspect was a good idea, but there was no screen of the game and sometimes it was difficult to understand how the game was.

Nice presentation , document kind of blurring

Awesome presentation, clear and funny.

May be so many things read on the power point some time but the presentation was clear and fun.

my group

Pros : Funny ppt and pres + clear, nice idea to present the project and not the game. nice gesture and eye contact

Cons : they said Areski was wrong, Areski is never wrong

very funny but maybe florian insists on the accent too much

The fun was here but it lacks images of the game

maybe a bit long to put memes on all slides but it was quite funny

Good oral presentation, but the slides were not very clear, and there was no screenshots of the game

It's a shame that the support was only a joke and nothing more but the oral was very good

Damien Rodriguez & Théo Criton

23 responses

Rocky start but good comeback, enjoyable presentation

Don't read your notes Theo.

Theo read too much his notes at the beginning. clear presentation and powerpoint.

Efficient and clear presentation. Be careful to not forgot your text !

Nice presentation

Good introduction, Théo lacks rythm. Strong sense of his voice.

Your slides are well organized and pretty. Be carefull to not read to much your notes :) You speak loud enough and you look at the audience which is great ! good job !

Cool support. Maybe the 20 sec/slide was a little hard to manage

Beautiful slides, a little too much of reading but the presentation was nice to hear

Théo had lost his text at the beginning but he caught up at the next slides. Damien had a strong voice, which made him easy to understand. They made a bit of fun orally but it wasn't too much, nevertheless, the screenshots were a bit too much for a serious presentation.

Clear presentation, interesting and with a pretty good template !

Cool presentation, funny and clear, interesting to follow.

Boone présentation de la part de Damien, bonne gestion du temps. Plus d'hésitation pour Théo. Un peut perdu au début de la présentation. Bien rattrapé sur la suite de la presentation

Theo was reading notes from his phone :(

Damien seemed confident and was speaking fluently, his accent was great. Theo was relying on notes, resulting in moments of hesitations and bad timing, but he was not only one who had this specific issue and his speaking skills were good.

The start of the presentation has been a bit difficult, but after that the group did a good job. The support was well done.

Nice presentation ,fun and interesting

The speakers failed to keep my attention. I think the timing should have been paced up a bit.

Long hesitation and reading some time but we understand what they says.

Tricky start for Theo, but the rest was a clear presentation with nice rhythm and a bunch of funny pictures.

Pros :Damien had a very good gesture and clear presentation. Classic and clear ppt

cons : Theo is too stressed at the begining and lost his words but at the end he made a clear presentation

good stuff

Good presentation, with very clear slides

Erwan Maupas & Pauline Delacroix

28 responses

Look less at the screen and more at the public at times, otherwise classic but OK, nice trivia at the end

Speak a little louder for Pauline. Don't look at your slides too much. Speak a little clearer for Erwan.

some blank because too slow or sometimes too fast. too long when someone talked because it's half the speech for one and the other half part for the other.

Pauline need to speak a little louder and clearly. Fine presentation in the overall.

Maybe a bit too much text

Pauline could talk a bit louder.

Erwan's vocabulary is a bit poor at first, which makes small room for nuance in his sentences. This issue faded with time during the presentation.

The yellow key points are a bit hard to read with the lights still on.

The key points could be summed up in fewer words.

Prosody makes everything sound on the same level (monotonous), it doesn't help connecting with the audience

Not a bad presentation nonetheless :)

blank background , black font not very sexy

very good ! You're sometime reading a little too much your slides :)

Very good time gestion

Maybe the support can be improved (typography) but it's chipotaaaage

Very interesting presentation but they're reading their slides a little.

/ (my group)

Well presented and interesting. Really clear and since I didn't know their game, it was really cool to hear about it.

Game design and level design about their project were also interesting.

About the presentation itself, it maybe have too much text, but otherwise it's really clear.

Put less text at the bottom of the slides, we can't see it.

Well presented, very clear and interesting (it is nice to finally discover their stealth game since I did not see it last year). Solid presentation.

Bonne gestion du temps pour Erwan, les slide se sont bien suivit. Il y a avait certain blanc pour Pauline mais la présentation reste très propre

The timing was really good and the presentation was fluent

There were times where Pauline was reading the document, however she was speaking fluently and was in time. Erwan was quite fluent too and was looking less at the support.

Good presentation, there was just some blank space between some slide.

Good flow, but to much text on the slides and they

Nice presentation , simple document is cool, black background can be a good choice

Good and clear presentation, maybe try to improve on the accent.

The explication was really simple to understand and the support was clear.

The group showed a solid presentation, just lacking a bit of timing in some of the first slides.

Pauline should speak louder and maybe work on her accent but expression is good. Erwan speaks loud enough but should really work on his accent. Zzzzee? Both read their slides too much!

The presentation was clear and well paced

levels schema where a bit hard to understand cause of all the information their containing

Better timing for the 20-seconds-slides
clear presentation, but they could speak louder

The genre is stealth, not infiltration.

Pauline is a bit too quiet

Damien Vinckenbosch & Robin Poirier

24 responses

Good overview of the general project

Damien should talk a little but louder. Thanks for the link.

Fine presentation, some hesitations however

Good presentation, maybe too much text

Great presentation overall :)

cool

Your slides are clear and well organized :) maybe speak a little louder but it was a very good presentation, good job !

Good document, typography is very clean. It's a real challenge to present this project because it's hard to explain (to my mind). You did it so, well played. Time management is pretty good too.

Great game, nice presentation :) Robin is speaking too much slowly but it was cool to hear their presentation

(I was with Tiphane during this presentation)

Clear presentation and template. PDF game ? Really cool !

Robin talks slowly. Damien seems to hesitate a lot.

Still, their presentation is clear. Too much text on their pics...

Need to speak a bit louder

It was a very interesting presentation about a very peculiar kind of game. Nice presentation. They need to be more confident because it was really great !

PowerPoint propre. La parole manque de vie. le ton est tres calm et toujours le même. Le temps pas slide est assez bien respecté

Nice presentation with a clean powerpoint

Me and my comrade !

Some blank space between some slide slide but the presentation was good.

Typography is really good, nice time gestion

Clear presentation.

Really interesting project and way of presenting it.

Pros : Original game, very clear explanations

Cons : Robin spoke really slow and finished his sentences too early.

quite good, a bit muffled

The presentation was very interesting and made me want to know more about your game

nice one

Tiphanie Timores & Arthur Pilewicz

8 responses

-

(they didn't make their presentation yet)

Ils ne sont pas passé, je ne sais pas pourquoi ? Donc pas de retour

They did not present.

this is me

Anthony Berisha & Matthis Cassagnettes

24 responses

Talk a bit slower, otherwise fun presentation

Speak a bit more clearly for Matthis.

Anthony look a lot of time to his chrono/notes/slides and not really to the audience at the beginning. Speaks clearly but a little too fast. he takes some little late in his speech that grow at each slide. don't interact each other but exchange time of speaking. Matthis don't really articulate so some words are difficult to understand.

Anthony speaks a little to fast but it is clear. Good support.

Too much info on slides

Very good presentation : voice really in control, good document, connecting with the audience well.

cool

SO COOL ! This game LOOKS AMAZING ! :D Good presentation, slides are really clear and your talking loud enough and look at the audience.

Very good time management. The document is clean and understandable. You both smile and we want to listen to you. GG

Nice game ! Sometimes too much images but that was great and understandable

Anthony speaks really fast! Though his sentences seem to be correct and he doesn't look for his words much. He succeeded on speaking clearly and being understandable even if he was speaking really fast.

Matthis spoke clearly, I could understand him almost all of the time (he sometimes "ate" a bit his words but it wasn't a big deal).

Anthony speaks too fast ! it's not really clear. Their template is clear and cool. Their game seemed to be really fun ! But it was really hard to understand sometimes.

Anthony spoke really really FAST, sometimes I could not clearly understand what he was saying. The rest of the presentation was well done and clear.

Bonne gestion du temps sur les slides, bonne expression oral, tout les slides se suivent bien sans blanc ni phrase coupé en pleins milieu. Tres bonne presentation dans l'ensemble

;)

The support is a little too simple. The presentation itself was fluent, even though there were a few timing issues.

Nice presentation, just a little fast

Antony talked maybe a bit too fast. The slideshow was clear.

No time with nobody speaking. Good presentation.

Really active presentation. Clear presentation of the pro and con of the projet. Good idea with the fun fact presentation.

Pros: Anthony's part was very clear
cons: Matthis's one was a bit more "messy"

anthony speaks slightly too fast

The presentation was clear and fluent

slides are nice and have good

Laurène Jechoux & Margot Pelloquet

25 responses

Don't look at your slides and/or notes too much.

good powerpoint, clear and simple. alternate speaking is quite refreshing but sometimes, they have some blank.

Margot and Laurène are looking a little too much at the teacher, but the presentation was quite clear !

Too much information on the mechanics only, slides look great

They talk loud enough, and their presentation isn't monotonous. The fact that both of them don't master the language prevents it from being completely natural but it is still a very good presentation, dynamic thanks to a carefully planned speech order.

cool

-

Very good document. Time management is very good (except 1 or 2 slides). The project is very interesting, and you both smile so we want to listen to you.

The petite pate molle attitude is quite atypical but funny.

They chose to alternate the speaker for each slide, which is kind of risky for a pecha kucha presentation, but I think they did quite well anyway! They were understandable most of the time. Nevertheless, when times runs out, Lauren starts talking faster with a quiet voice, which makes it impossible to understand what she says at these moments.

Clear and understandable. Interesting but a little bit long sometimes ! Since I worked on the project I will not talk about the game design because it will be subjective.

Presentation is really well designed, not too much texts. Pretty good template ! But they had to talk really fast because they had tons of things to say. I really liked the presentation !

Beautiful presentation, some of the slides were too long so they had to speak a bit quickly. Clear and interesting.

Bonne présentation et bon gestion du temps

Were sometimes looking at their slides a bit much

They used notes, however they still managed to do a smooth presentation. There were moments they were lacking in the timing department.

good presentation, good idea to switch who talk every slide.

Nice presentation and organisation, good document

Clear presentation but some timing issues happened.

Timing was good. They speak fast but the support help to understand.

The presentation lacked in variety in the end, mostly only presenting cards. It would have been great to see a game turn.

Pros : Nice powerpoint, clear gameplay explanation, good gesture and eye contact

Cons : a little more than on 20s each slides

Need to work on their accents. Sometimes margot speaks too fast and it gets jumbled.

The presentation was very cool, but be careful with your time

Good presentation, but the 20 seconds timing was not always respected

Sometimes they're taking more than 20 seconds. Both are speaking loud enough and clearly. It's good. Laurene reads too much.

Eva Schmeltz, Aitor Temporelli & Yoann Le Gouzouguec

27 responses

Nice visuals , pretty dynamic presentation

Really nice presentation. Yoann could work on his accent.

Yoann say too much "euuhhh". really clear ppt. good images.

Very pleasant support. The presentation was clear as well.

Good slides, "the more faster" xS

Eva lacks a bit of dynamism but vocabulary is great.

Nice presentation. Yoann was searching for his words a bit but stayed interesting to listen to.

OMG AMZING

Your slides are aesthetics with enough informations to follow what your talking about so it's great :)

Perfect document. The continuity of your game's perfection. Nothing to add

Beautiful concept and slides. Clear to hear

Aïtor says "euuuh" a lot (but almost everyone does, I just particularly noticed it with him). Eva is clear. Yoann forgets to pronounce "s" at the end of words (plural ones). They chose to change the speaker often, which is dynamique but risky for a Pecha Kucha presentation.

They all talk really fast but else, it's clear. Good template ! Sometimes Aitor didn't seem to know what to say.

Ouch: "More faster"

It was my team ! I think we did okay, even though we need to work on our pronounciation and grammar. Also sometimes we did not have enough time to say everything we had to say.

Bonne expression oral dans l'ensemble, quelques petites couac sur le timming des slides mais très bien dans l'ensemble.

Good powerpoint and good management of the flow

Eva was confidant and had a good accent, also her timing seemed to be on point. Aïtor was hesitating and had some timing issues, even though he still was pretty decent. Yoann said "euh" a lot of times, however he was speaking really smoothly. The presentation was well-prepared overall, even though they had a moment of confusion once.

Very nice presentation and a great support.

Knowing the struggles Yoann had last year, he really improved his english !

Nice presentation make the dogg great again

Yoann had some grammatical issues and Aïtor didn't rehearse enough but overall, the presentation was ok;

It's me !

Clear and structured presentation. Yoann and Aitor had a bunch of troubles with english talking, but it was clear their was preparation.

Pros : nice ppt, nice shemes and images. Eva and Yoann had a nice timing.

cons : Aïtor took too much time during the first slides. Yoann : "the faster, the slower" for "le plus rapide, le plus lent"

huh huhhh huuuuhhh huhhhh huhh huuuuuuh

Very nice presentation that made me want to play the game

Very clear presentation, the game was very well explained

Rodolphe Lang & Hugo Huyvenaar

24 responses

Dark text & images on dark background are not very readable

Dont look at your slides. Hugo hesitates a bit too much. Rodolphe sometimes forgets the "s" at the end of a plural.

Some slides with a little too much informations

Rodolphe's voice make him seem very down, and Hugo's make him seem joyful in comparison.

cool

-

Clean document. A lot of pictures (visual appeal). Perfect time management. You feel comfortable speaking in english. I would like to see your perfect smile when you speak, Hugo!

Great presentation, well speak and nice powerpoint :)

Good rythme. Many slides without text : it forces the audience to listen, I think it is great but maybe adding some key words could have helped us making sure that we understand what they are saying and the link they make with the pictures. Rodolphe speaks clearly. Hugo is a little less clear but still understandable.

Hugo should talk louder... Else, it was a clear and interesting presentation.

Theme of the powerpoint is probably too dark

It was a bit slow-paced and hard to follow. The presentation was clear and well done.

On aurai pu avoir une meilleur gestion du temps, des blanc sur certain slide et d'autre ou nous n'avons pas eu le temps de finir. Nous avons quand même pu dire tout se qu'on avait a dire .

Hugo wasn't speaking loud enough it was hard to understand what he was saying

The support looked kind of cheap. They were relying on notes, however their presentation was going smoothly, except when Rodolphe hesitated at some point.

Good presentation,just some little problems of diction at the end.

Prepared and clear, but really hard to talk about so many things in so little time. Maybe they should have cut a bit of the content.

Good form of document , you need to speak up little

Hugo should try to speak louder. The slide with the attack combo was a bit crowded.

Nice presentation but some slide are little hardest to read (orange with a grey background).

The presentation was nice but Hugo has to speak up louder for those in the background

Had troubles timing themselves at the beginning but caught on with the pace

They had to trouble with the timing of the slides, however they were fluent most of the time. The support could be prettier, and what was being said was sometimes a little too close to what they were saying.

great presentation, the support was very good.

Nice presentation, the document is clear , good job !

Clear presentation, maybe some small timing issues

Simple power point but illustrate what they say clearly. Just a little time problem at the beginning.

The presentation could've been mastered, but the content was really great and the powerpoint was well built.

Pros : Nice ppt, clear presentation, good eye contact & gesture

cons : a little more than 20s on some slides, slides with only text are a bit weird

Benjamin speaks slightly too fast and sometimes it gets jumbled. I think jean loup has a tendency to reach for very complicated words when they aren't needed.

The presentation was well conducted, good job !

it was nice

Very good presentation, but Jean Loup should probably talk a little faster

They are a bit too handsome I couldn't focus on what they were saying

Nicolas Giraudet & Marceau Lievremont

27 responses

Blanks and desynchronization. Good explanation of the game's mechanics. What is the effect of the poisoned shadow?

I'm having a feeling of déjà vu. Nicolas should speak a bit louder. Don't look at your phone's too much.

don't concentrate because one slide was too anybody. really clear presentation. Nicolas takes too long to speak. Gif that helps to understand a mechanic. Some sentences be cut because they don't really train their presentation.

/

Nicolas doesn't speak loud enough, transitions ew

They didn't turn off the light D:

Nicolas wasn't talking loud enough, and his voice was a bit monotonous

Very good presentation for Marceau.

The presentation document is very good. High quality and good examples.

cool

Your slides are great : clear and aesthetic ! Maybe you could speak a little louder :)

Good presentation, you're speaking loud and the slides are aesthetic and nice to read.

Both of them were speaking a bit too quietly, nevertheless their rythme was serene, which was pleasant. They didn't looked stressed. They had a clear and good looking PowerPoint.

We already saw the project but still the presentation was clear and the template really cool !

It was also interesting.

Respect the timings a bit more

Nice and clear presentation, just too bad we already saw a presentation about the same game a few minutes before. They might need to speak a bit louder though.

Petit couac sur la répartition des slides. Gestion du temps a améliorer. PowerPoint propre

Good presentation, nice slides

Too much slide transitions when you only have to stay 20 seconds on each slide can be tiring. They were confused about who was supposed to talk once, in addition to some timing problems.

Nice presentation, good support but there was just this little bug when no one seem to know wop had to talk.

Very pretty and clear slides. It goes strait to the point. Some difficulties speaking at the beginning though

Nice presentation

Clear presentation. A bit disappointing to see the same game twice but I guess it's not their fault.

Time problem at the beginning but we simply understand with the support and what they say how the game was build.

The presentation was good and clear, nothing much to say.

Pros: very nice ppt (maybe too much glow effect)

cons: Nicolas /\ hand in his pocket

okay i guess

A little silence in the presentation but the rest was really good

nice but a bit sad to see the same game twice

Sometimes they didn't have enough things to say. But overall it was good.

Jules Perez & Thibault Legouet

22 responses

cool

Clear slides

Speak louder and clearer for Thibault. Don't look at your slides for Jules.

Jules doesn't look at the audience. Good prez anyway.

its a me

-

Clean document. Interesting structure : you talk about how you design the game, but also the issue you(we) had. And there is a picture of me, so it's funny.

Good aesthetic for the slides, but you need to speak slowly... (especially Jules... it was hard to understand you). Nice presentation anyway

Thibault mumbles a little bit. Jules speaks too quickly, it makes it hard to follow what he is saying. Because of this speed he sometimes need to take a break (to breath/gulp, which cuts what he is saying. When Thibault doesn't have time anymore he speeds up and mumbles so much that he isn't understandable at all.

Thibault should speak louder ! I can barely hear him. Jules talks too fast. Their template is clear.

They both need to speak louder and more clearly. The presentation was cool and well done.

Sur certaine slide Jules parle trop vite et s'embrouille dans ses mots. Le reste de la présentation été bonne .

Some awkward pauses, time yourself

Decent presentation, nothing much to say.

Good presentation, they just had some difficulties to start but the rest of the presentation was good

Nice document clear one, Title is just a little too big

Clear presentation, well rehearsed. Maybe try to work on the accent a bit more.

The powerpoint was really charge. So many picture and Bullet point.

Interesting game jam projet, nice flow during the whole presentation. Would have been great to see actual gameplay.

Pros : clear gameplay presentation, ok ppt

Cons : Timing was a bit off

The presentation was relevant and you have presented your game and its mechanics well

Romain Jaubert & Lucas Torselli

24 responses

Lack of time on certain slides, a bit of repetition. Nice idea to include the trailer, too bad it didn't work correctly

Speak clearer for Lucas. Speak a bit louder for Romain.

Clear presentation

Romain feelsbadman the video

cool

Good presentation with nice slides, well organized and aesthetics :)

Very clean document with only usefull informations. Good pictures. The trailer is epic af

Nice game ! Great presentation, not too much things written nor images, too bad for the trailer :(

(I was with Tiphane during this presentation)

Their template is clear and their presentation is interesting. I think they talk a little bit too fast, and Romain should maybe talk louder. Too bad for the trailer.

WOW AMAZING ! I'm speechless

Nice and clear presentation, too bad the trailer was not working, I wanted to see it !

Bonne aisance a l'oral pour les deux. La vidéo permet de bien illustrer leur propos

Good but too bad the video wasn't working

Romain needed to speak up a little, but it was a decent presentation overall and they were speaking fluently. (Be careful about slide transitions with only 20 seconds slides)

Good presentation, but it's sad that the trailer didn't worked

Good document we understand all great job

Great presentation except for the video/sound mix up

Presentation was clear.

A little of trouble with some timings and the trailer wasn't working, still a quite nice presentation.

Pros :nice ppt,

Cons : Too much text on the first slide

cool artistic direction for the trailer

Good presentation with a great sound design at the end

best presentation i've ever seen in my life

Mia Perrotin & Nathan Heinis

28 responses

Irregular timing, the game takes very long to be introduced. I like the design of the slides.

Mia should speak a little louder and clearly. Some slides are a bit too dark.

too much bullet point or text. don't use in a good way the space in their slides. change the location of the text for each slide. Use justify text some times but they create too much space between words. Mia speaks clearly but not enough loudly also she had a "blank moment " for speaking too fast. Nathan speaks fluently.

The introduction was a little bit too long, and the distribution of speech was

Not swapping the talker enough

At first, lacks dynamism and strength in the voice.

Nathan hasn't talked at all during the first half of the presentation :/

When he starts talking, he talks slowly, with a monotonous voice at first. Third slide has more varied prosody but still a bit monotonous.

cool

Your slides and presentation are great :) maybe speak a little louder, but good job guys !

Good support and interesting project.

Just need to speak a little higher, slides are goods but sometimes too much things written. Great timing, nice to hear :)

Nathan had a clear and loud voice that made him easy to hear. Mia looked stressed by the timing of the slides. Their PowerPoint had a lot of pictures, it's nice for the eyes because it is good looking but it doesn't help focusing on what they are saying.

It was me ! I think I should talk slower and louder.

First slide should probably be less important

They had to speak really fast on some slides, yet on other slides they stopped talking after 5 to 10 seconds. Also, Mia needs to speak LOUDER, I'm right in front of her yet I struggled sometimes to hear what she had to say. I think there should have been titles for each of their slides, but the rest of the presentation was very clear and well done.

Une gestion du temps approximative (des slide avec des blanc et d'autre ou on n'a pas la fin des phrases)

Mia was reading notes from her phone and her slides

What Mia was saying was too close to what was written, probably because there was too much text on the support, also her timing was not on point. But she had a pretty good accent. On Nathan's part, he was saying more that was not written, but he also had issues when it came to timing.

Good presentation

Nice presentation

Beautiful presentation. Good speakers.

May be so many picture some time but the presentation was clear.

I wasn't too sure about the main topic at first. They were reading a lot the support. Still, the presentation was interesting and quite different from the rest of ours.

Pros : Nice combination of images/text

Cons : Some delay at the begining

mia is inaudible. nathan is ok. I want to die because we all know everyone else's end of year project.

The presentation was clear but there is too much information who where not about the game

maybe a few screenshot from the game could have been nice

Clear presentation, but we have not learn much about the game

Mia isn't speaking clearly enough. She's taking more than 20 seconds.

Mathias Di Chiara & Hugo Lagarde

21 responses

cool

It took me a bit of time to figure out what exactly they were talking about, otherwise OK

too much animations slide. good images and icons. they spoke in 20 seconds a lot of time.

Far too much elements on some slides but interesting in the overall.

Time the animations next time

A bit slow, but overall they keep the audience engaged

Nice slides with important informations :) Good job !

Nice slides, very poetic background

Animations were not adapted for a pecha kucha presentation. Hugo sometimes loses time because he is looking for his words. Mathias has a pretty stable rhythm of speaking, which was great. It was interesting to talk about this project.

Their presentation is clear but I don't really like the template (but it's clearly subjective). They maybe have too much texts/informations on their slides.

I think Mathias talks too fast also.

A bit too much text on their slides, it was difficult to follow sometimes while listening to them as well. The rest was okay.

Bonne aisance à l'oral pour les deux.

Nice presentation

The animations seemed unnecessary overall. Hugo had troubles with timing and there were times he was hesitating on what to say, however he appeared to be at ease when he talked. Mathias was more confident in what he was supposed to say.

Good presentation

Good use of symbols in the presentation.

We understand what they want say.

The presentation used variety on the content and made it clear with visuals and texts.

Pros : nice ppt

Cons : bad idea to put animations in an exercice like this, attacks shem

The presentation was really interesting and your universe too

Catherine Dorojko-Mojaisky & Amédéo Calbrix

27 responses

Amedeo should speak more clearly. Catherine speaks a bit too fast. The sketches are really cute :)

Catherine speaks a little too fast for understanding all her words. they change the speaker a lot and this convey a good dynamic. talk about the good things, the issues that happen and what they learned by this project so it's really good. clear PowerPoint.

Catherine speaks too fast and it is clear that she is repeating her text. A very interesting presentation due to the angle adopted by this group.

Good presentation

serenade me with your British accent<3

Lacks a bit dynamism but clear and nice to hear.

Varied slides, makes it look like there is no unified document theme.

cool

Good job, your slides are clear and with enough informations that are well high lighted, with the main ideas. Doing a Post-Mortem is a very good idea too ! :)

Interesting presentation, i love the fact that you talked about the issues you had.

Great presentation ! Interesting game

Catherine speaks quite fast, sometimes it makes it hard to follow what she is saying. Amédéo sometimes kind of "eats" a bit of the words which makes it harder to understand him. Changing the speaker at each slide was a bit risky. Amédéo takes his time a bit too much which often makes him late on the timing.

Clear presentation, talking really fast. They stop talking sometimes but I don't mind. I can't really understand Catherine, she talks really fast...

Too bad that they were not talking about game design... Still, the post-mortem is interesting. It's important to hear what went wrong.

It was an interesting take on what they had experienced for this project. The presentation was clear but they had problems with its pace (either too slow or too fast).

Bonne aisance a l'oral pour les deux. Un peut rapide sur leur discoure se qui a amené quelques blancs en fin de slide.

Good presentation with a good talking flow

Catherine was not looking at us, probably because she was thinking about what she needed to say, resulting with her talking too fast. Timing problems at times, especially on Amedeo's part, even though he seemed confident in his voice.

Good presentation, the idea to talk about what they learned was good.

Excellent

Nice presentation nothing else

Nice presentation, well rehearsed

Simple, clear and fun.

They talk clearly and loudly, making it really nice to listen to. The presentation was good.

Pros : Nice ppt, Clear gesture and eye contact

Cons : Catherine finished her slides a bit too early

amédéo is overdoing the accent.

Catherine is not articulating.

Your presentation was perfect, nothing more to add

nice accent from amedeo

Very good presentation

Amedeo's accent is way too forced and hard to understand.

Catherine is okay
