

BEST of 2016

You are going to write about a best of moment for you that occurred in 2016! I know that this is challenging since many people were so happy for 2016 to end its doom and gloom, but you must be able to find at least 1 positive moment!

Explain why this event represents the year's best for you. For inspiration, you can refer to online lists of 'Best of' moments.

Look through some images from around the Web ("Year in Pictures" review) and select the image that you think most captures the *essence* of 2016.

Copy/Paste that image and describe it.

Then, write an explanation for why you selected that particular image. How and why does this capture the essence of 2016 in your opinion?

This should be about a half of a page or a bit more...3-4 paragraphs.

You can focus on global or local events, movies, series, games, books, songs, sports or other artistic creations, OR personal moments etc... from 2016 that were inspirational and deserve to be your "best of" moment.
